

## ***Moment of Luxury*** **William Stubbs, Host**

Bill Stubbs brings to his role as ***Moment of Luxury*** host the artistic eye, adventurous spirit and extensive knowledge that has made him one of the world's leading interior designers. With ***Moment of Luxury*** Stubbs hopes to share his vision: luxury can be experienced by everyone, no matter how lavish or modest their budget. Combining his extensive experience with the high-end market of the wealthy with his own humble beginnings – and the affordable practicality rooted therein – Stubbs is able to orchestrate all the elements of comfort, excellence and exclusivity in any environment. He calls his special touch “affordable luxury” and Stubbs’s enthusiasm, energy, humor, knowledge, and gift for design result in an unparalleled combination that is showcased on the national public television lifestyle series ***Moment of Luxury***, and in its accompanying website: [wliw.org/momentofluxury](http://wliw.org/momentofluxury).

Named to the “AD 100,” *Architectural Digest*’s list of the World’s Top Designers and Architects, Stubbs is president of William W. Stubbs and Associates, a 25-year-old international interior design firm whose recent projects have taken him around the world to Kiev, Moscow, London, Hawaii, Acapulco, Palm Beach, and Houston. His award-winning designs have included renovations of historical buildings, private homes and estates, vacation retreats, commercial multi-family properties, community housing projects for the elderly, and most recently, the interior design of a large corporate jet.

It is his holistic approach to each project that defines Stubbs’s style and success. Believing that an environment should nurture and serve those for whom it was created, Stubbs sees his job as facilitating accomplishment of that goal. His clients have run the gamut from the rich and famous, who have no budget restrictions, to dense community housing projects, to the recent graduate who must furnish her entire existence on less than \$3,000. Into each job he pours the energy commensurate with the extent of the project, not the importance of the client.

A much sought-after public speaker and guest lecturer for audiences throughout the United States, Stubbs is the recipient of the Champion of Literacy Award, which honors individuals who promote the cause of literacy and who have made a difference through the written word. He has made numerous TV appearances, and his work and professional opinions have been published by numerous magazines and newspapers. His Houston townhouse, known as the Stubbs Idea House, serves as a locale for charity functions and Art Institute classes. Stubbs is the author of *I Hate Red, You’re Fired! The Colorful Life of an Interior Designer*.
