Live from the Artists Den #305 "Squeeze"

Recorded July 15, 2010, Bryant Park, New York, NY

As teenagers on the South London Scene in the 1970s, childhood friends Chris Difford and Glenn Tilbrook formed **Squeeze**, the pioneering UK band that saw them dubbed "The New Lennon and McCartney." Championed early on by the Velvet Underground's John Cale, who produced their debut EP, *Packet Of Three*, Squeeze established their position as one of Britain's most beloved bands with 1979's *Cool For Cats*, setting off a decades-long career that would produce hits in the UK and abroad.

Bryant Park provided a picturesque setting for a secret performance by UK pop legends Squeeze on a warm summer night. The groundbreaking band played hits spanning their career, including "Is That Love," "Pulling Mussels (From The Shell)" and "Tempted," in celebration of their latest album, *Spot the Difference*, which features new recordings of Squeeze classics.
